The Dull Evolution

People have not swiftly **evolved**–
evolved into **models**–
models of longevity, **peace**--
peace with the universe.

Can't live on earth in **harmony**?
Harmony or by **sustaining**?
Sustaining resources **renews**,
renews our hope for better world.

Our brains short-circuited? Our **DNA**-
DNA has unidentified **junk**,
junk from left-over stardust **not absorbed**-
not absorbed to bring radiance, brightness
