

Compound Word Verse

Snow Fall

Wind storm sneaked snow in the cold night.
covered in ice and silent white.
Were snowlocked.

Snowboards, snow angel a child makes.
Snowballs, snowmen of packed snowflakes
in snowfield.

Cars in snow bank, sleds and snowshoes
seek snow plow our mobile blues
in snowdrifts.

Snow blowers or snow throwers blast
new paths in snow that will not last
this snowstorm.

Icicles glisten in warm sun
melting roads and roofs say we're done
with snowscape.
