

## Pleiades

### Garbage

Greedy worms and insects,  
grubby grubs in tossed trash.  
Grimy veggies rotten.  
Gelatinous, slimy  
gooey mixtures stinking  
ghastly odors wafting  
going into your nose.

### Spring

Suddenly showers return  
sprinkling all blooming buds.  
Sneakily wind gusts release any remnant leave.  
Such abundance of green emerges  
seeking petals of myriad colors for lawn art.  
Surprisingly the winter world warms.
