### When the E-T's Come

When E-Ts came to visit  
people had somewhat evolved  
with their issues somewhat solved  
so the E-Ts decided to transit.

But if E-Ts were to come now  
would they help or would they harm?  
Would they cause peace or alarm?  
We'd have to react somehow.

SO let's hope they wait awhile  
until Earthlings know their mission  
and E-Ts would get permission  
so we can pow-wow in style.
