

Reverse Tritina

New Year Possibilities

New Year opportunities are in evolution..
Resolutions are delayed illusion..
Now is the time for the more sustainable solution.

Now we face a possible New Age
New chances to create a hopeful page.
Resolutions worthy of a wise sage.

Resolutions must spring from a welcoming heart.
Now we must step up and occupy our part.
New light energies force darkness to depart.

Now we release peaceful **resolutions** to make the world **new**.

Reverse Tritina: Created by Linda Varsell Smith

1. Ten lines.
2. Instead of the end words pattern of a regular Tritina, use the first words of the lines in the pattern.
3. Pattern for repeated first words: A- B-C C-A-B B-C-A
4. Last line take the first words from the first stanza and use them in reverse order in the last line.
5. For fun I end-rhymed each tercet.
