Poor's Punch

Drink Poor's Punch
or water to rich.
As water resources diminish
there may not be any
drops to drink.

When sun dies
if there is some water,
energy can be created for
folks to survive, using
some poor's punch.

Waterless—
our species can't survive.
We would have to leave this blue planet,
find a watery place
with poor's punch.

Tripod: Created by Frances T. Brinkley

1. Five-line stanzas.
2. No rhyme scheme.
3. Syllable Count: 3-6-9-6-3
