Cosmic Speculations

Dark energy
and dark matter
 fill universe.
What do they do?
We hardly know.
 It could be worse.

Multi-verses
also exist
 at least in minds.
Doppelgangers
duplicate us,
 they think they'll find.

One of me is
enough many say.
 Simulations
have gone awry
causing many
 stipulations.

We know little
about cosmos.
 What to believe?
What will guide us?
What new knowledge
 will we conceive?
