

Septone

Puzzling

The Harry Potter puzzles—
five hundred pieces—
“The Great Hall”
big and small
pieces sprawl.
Quidditch ball—
field day for us all.

Waiting to Play Ball

Plastic gear for junk ball game
sprawls on our driveway.
Bat-splotches
base-blotches
glove-botches
ball-gotchas
before children play.

Get a Grip

The car crept the icy hill
to dark Sunriver.
Car slipping,
nose dripping,
hands gripping,
mind flipping.
Playing Survivor?

Septone: A Septone uses the numbers in your telephone number without the area code as the numbers for the line syllable count. If you use area codes they are technically not called Septones but of course- go ahead. They make nice birthday and anniversary greeting. Can be rhymed or unrhymed. Centered or flush left.

These Septones are using: 7-5-3-3-3-3-5. The examples rhymes the 3's and 5's.
