

# Tetractys

## Animating My Angel Collection

My  
angels  
animate  
I believe, but  
no one else thinks it's possible—too bad.

More  
fun to  
dream they can  
watch and protect—  
active guardians in more solid forms.

Real  
symbols—  
iconic—  
hovering their  
light spirits, radiating joy and hope.

So  
create  
new realms of  
experience.  
Imagine life forces surrounding us.

**Tetractys:** Invented by Ray Stebbing. At least 5 lines of 1-2-3-4-10 syllables.  
Can be more than one verse. My example does not reverse the syllable count in the  
second stanza like he suggests. I will just call mine a Tetractys Series.

Double Tetractys: 1-2-3-4-10-10-4-3-2-1

Triple Tetractys: 1-2-3-4-10-10-4-3-2-1-1-2-3-4-10

Continue the pattern as long as you want.
