

Twin Etheree

If I Wish Upon a Star

Star
are
wish site
tonight?
I'm choosy.
Galaxy:
There's billions,
sextillions
but my doubts still mount.
I can never count
to find my special light.
I wonder where this night?
Some galaxies are spiral.
Others are elliptical.
Flat rotating disks display.
Arm-like projections array.
Spiral starry Milky Way-complex.
Telescopes scan. What will they find next?
How many people wish? Many stars there.
This star-gazer keeps wishing with star-stare.

Twin Etheree: Created by Robert Crockett. Rhyming couplets based on an Etheree (ten syllables of unrhymed verse). This is done in ten rhymed couplets 1-10 20 lines. This is centered. Could be flush left.

Syllable Count and Rhyme Scheme:

1a-1a-2b-2b-3c-3c-4d-4d-5e-5e-6f-6f-7g-7g-8h-8h-9i-9i-10j-10j.
