

Winged Fib

Pondering Who To Pray To

I	I
tend	am
to pray	not sure
to angels	who hears them
winging my prayers	or who receives prayers.
for love and light to beloveds.	I flap my word wings anyway.

Winged Fib: One of the configurations you can make with fibs. You can reverse the wings and make a kite or diamond. By creating two columns on the computer, you can play with format to suit the topic of your poem.
